

ELEVATION: TLC55

Outdoor TV Lift Cabinet for up to 55" TVs

“Elevate Your Entertainment: The Outdoor TV Enclosure that Rises to the Occasion”

Experience outdoor entertainment like never before with the Elevation TLC55, the ultimate outdoor TV Lift Cabinet from Apollo. Combining sleek, low-profile aesthetics with robust, weatherproof construction, this cabinet delivers both style and durability in any environment and accommodates up to a 55" TV. Arrives fully assembled for true plug-and-play convenience—simply attach the two caster wheel assemblies, mount your TV, and you're ready to enjoy outdoor entertainment.

The intelligent lift system ensures smooth, reliable operation, effortlessly raising and lowering your TV with the touch of a convenient wireless RF remote. Built-in power solutions, including an internal 3-outlet power bank and a 7-foot outdoor-rated cord, keep your devices connected and safe, while air vents and watertight cable covers provide superior protection against the elements. Heavy-duty lockable casters enable easy mobility, and thoughtful details such as internal TV-mount brackets and organized cable management make installation a breeze. Integrated handles on both sides make it easy to move the cabinet to your perfect viewing spot, wherever the action is.

Elevate your outdoor living space with the ultimate blend of innovation, convenience, and elegance—perfectly engineered for exceptional viewing, rain or shine.

Features

- Durable all-aluminum and stainless-steel construction with a powder-coated finish for lasting style and resilience.
- Arrives fully assembled. Just attach two caster wheel assemblies and install your TV – Done!
- Intelligent lift mechanism smoothly and quietly raises or lowers your TV within the cabinet.
- Effortless TV adjustment using a convenient handheld RF remote, plus an integrated remote holder inside the enclosure for organized storage.
- Built-in control panel provides redundant operation, allowing you to set and control the TV lift height directly from inside the cabinet.
- Soft-open lid features a hydraulic damper for smooth opening and safe, gentle, controlled closing.
- Heavy-duty 3" lockable caster wheels enable easy mobility and secure placement for optimal TV viewing.
- Accommodates any indoor TV up to 55" and no deeper than 3.5" (sold separately)
- Slim, ergonomically designed low-profile cabinet for a modern, unobtrusive look.
- Integrated side handles for easy, effortless movement and flexible TV placement outdoors.
- Fully weatherproof construction withstands the harshest outdoor conditions. TV must be stowed, and the lid closed for weather protection.
- Integrated internal 3-outlet power bank supplies reliable power to the lift, TV, and one additional media accessory.
- 7-foot outdoor-rated power cord ensures safe and flexible installation in outdoor environments.
- Built-in air vents maintain optimal airflow to prevent overheating when not in use, while a watertight cable cover protects all connections from the elements.
- Internal TV mount brackets streamline installation and provide easy, organized cable management.
- 1' extension power cord for TVs with right-angle plugs
